Dr. Dan Shugar

Associate Professor, University of Calgary

Dr. Dan Shugar is a geomorphologist and an Associate Professor at the University of Calgary where he leads the Water, Sediment, Hazards, and Earth-surface Dynamics (waterSHED) Lab in the Department of Earth, Energy, and Environment. His research focuses on geohazards in mountain landscapes, and he uses a variety of approaches to study them, including Earth Observation and field mapping. He's also an ice cream maker, but not an ice cream snob.
